### Food and Nutrition

At MHJC, we promote a healthy lifestyle to our community – students, staff, and families – as part of our commitment to a safe and inclusive school environment and to the National Administration Guidelines.

Educating students about nutrition and encouraging healthy active learning contributes to their personal success and wellbeing, and to a healthier community for everyone.

Our school follows food safety guidelines.

#### Promoting a healthy food and drink environment

A healthy food and drink environment helps support a young person's wellbeing (hauora), including their immediate physical and mental growth and development. It also helps establish positive behaviours for the future.

At MHJC, we:

- ensure that any food or drink provided by/through school (e.g. in class or sold at school) aligns with any national food and nutrition guidelines, such as the Ministry of Health's [Healthy Food and Drink Guidance – Schools](#)
